

April 28, 2007

Dear Colleague:

I am pleased to invite you to a very special event. On Tuesday May 22nd, Boulevard Healthcare will be hosting its 2nd annual medical directors meeting. We hope that we will continue to have such a meeting on an annual basis. It will provide an opportunity for medical and associate medical directors from both the Illinois and Ohio properties to get to know each other. We will be joined by representatives from the Boulevard Administration and nursing leadership.

I am particularly pleased to announce that the keynote address will be delivered by Mr. Steven Levin. He is a senior partner of Levin & Perconti, and a trial lawyer with more than 25 years of litigation experience and success. In 1983 he founded Steven M. Levin and Associates, a firm dedicated to representing plaintiffs in substantial personal injury and wrongful death cases. In 1992, he and John Perconti founded Levin & Perconti, which has since grown into a nine-lawyer plaintiff personal injury firm with more than 125 years of combined trial experience, and is a national expert on the topic of litigation on long term care.
